2013 Annual Conference Call for Speakers and Topics
Here's your chance to contribute to PA NEN's Annual Conference. We are seeking session topic and speaker submissions related to nutrition dealing with the low income population. Conference dates are April 30 – May 1, 2013; and it will be held in Harrisburg, PA.

Some of the topics might include:

- The combination of physical activity and good nutrition
- Client motivation
- The many aspects of diversity, i.e. age, ethnicity, suburban vs. rural, etc.
- Live cooking demonstrations
- A fresh look at local food movements, i.e. community gardens and farmers markets
- Nutrition policy changes that have been enacted and how they've impacted the low income population

Help make the 2013 Annual Conference even more successful than 2012! Don't delay; the deadline is October 1, 2012. For more information, and to submit your session ideas click here.

If you have any questions, please contact Rose at the PA NEN office at 717-233-1791 or e-mail rcleland@phmc.org.

The Summer Newsletter is Here!
Embrace health and wellness by venturing through the initiatives highlighted in PA NEN's "Food For Thought Newsletter." Learn about organizations zooming fresh fruits and vegetables straight to families in need, while others help these same families grow food in their backyard. Browse through more stories, catch yourself raising an eyebrow at one of our titles, and satisfy your curiosity with a posted article! Read on at this site!
You're Invited to Attend PA NEN's Board Meeting.
Sign up to attend the PA NEN Board Meeting on Thursday, October 18, 2012. This year it will be held at the Special Services Building in State College from 10:00-2:30 PM. Make sure to RSVP to Julie at: jbartol@phmc.org.

For more details, please check out the PA NEN Board Meeting page.

International and National News:
Cooking veggies without stripping them of nutrients has never been so easy!

The food industry tries to reduce salt-intake by sharing innovative ideas.

A new low-calorie-sweetener gets ready for release.

Americans drop 40% of their food into the dumpster.

Why are cantaloupes always getting people sick?

Some school cafeterias take part in "Meatless Mondays."

Preliminary studies show that antibiotic usage might alter our digestion, priming people for obesity. Fructose and sugar-substitutes may also alter people’s metabolism.

Students don’t want to pay high prices for low-quality school lunches. They take a stand through twitter and other social media sources.

To cut salt, to not cut salt? Restaurants decide what works for their menu.

Do government regulations help people eat healthier?

A researcher predicts what a sugar sweetened beverage tax could accomplish.

Allowing for less TV time during the week might reduce obesity in children.

For weight loss, 30-minutes of exercise might benefit just as much as a 60-minute exercise routine.

Kids eating healthy for better grades.
September starts off "Hunger Action Month."

Local:

**Philadelphia:** Exciting news! Kids lose weight in Philadelphia! I hope this trend continues!

**Pennsylvania:** Fresh-cut mango is recalled because of a potential Salmonella contamination:
- Taylor Farms in New Jersey recalls any products with Daniella Brand Mangos.
- Ready Pac announces voluntary recall of fresh fruit with mangoes.
- F&S Produce Co., Inc. Recalls fresh-cut mango products.

Resources:

Research how the Information Age increases obesity.

Altered eating behaviors are associated with short- and long-term weight change. Here is a summary of the study. If you are a part of the American Academy of Nutrition and Dietetics (ACND), you can obtain the article for free.

If kids turn their nose up to healthy snacks, a cartoon character like Elmo could help change their opinion. Slapping a cartoon character sticker onto healthy foods may make them more appealing, according to a study published in the Archives of Pediatric and Adolescent Medicine. Click here to read a news brief. To view a summary of the study, click here. The full study requires a subscription.

Garden ABC's Facebook Page contains lots of garden and kid-friendly educational activities.

One out of five Americans had trouble feeding their family this year. See the poll.

This report predicts that Supplemental Nutrition Assistance Program (SNAP) recipients spend longer shopping for and preparing meals.

Webinars:

*NEW-Gain continuing education credits, Registered Dietitians and Dietetic Technicians, and listen to a webinar about current research on sugar and fat metabolism. Listen anytime, at any place with a computer!*

Might you want to clear your calendar for November 6th at 7:00 PM? Dr. Linda Karges Bone will be giving a talk entitled, “Poverty Stress & the Brain,” in the Sill Board Room of the vonLeibig Center for Science on Juniata’s campus (find the campus map [here](#) and directions [here](#)). She’ll be showing how poverty and stress reduce brain functioning, hamper creativeness, and stunt people’s ability to make healthful choices. Begin to understand the physiology behind this process, and leave with ideas to work with low income populations. There’s another interesting session titled, “Aging and the Brain” the next morning at 10:00 AM too! Look [here](#) or contact Rosalie Rodriguez at rodrigr@juniata.edu or (814) 641-3125 for the details.

Grants and Opportunities:

**NEW**-To support the use of Kids Eat Right’s toolkit, “Healthy Snacking In a Nutshell,” 35 mini-grants (worth $200) are available. Recipients will present twice utilizing the teen athlete, adult athlete and coach presentations from the toolkit. Applications are due September 14, 2012. Look [here](#) for more information.

The Pennsylvania Chapter, American Academy of Pediatrics (PA AAP) is seeking Registered Dietitians throughout Pennsylvania to co-present with physicians for a CME/CEU obesity prevention program as part of the EPIC® Obesity: Evaluation, Treatment and Prevention in Community Settings program. The chosen speaker will focus on primary care practices, updates on research and practical ways to work with patients and families to address childhood obesity. An honorarium of $150 is provided to presenters for each program. The PA AAP makes program arrangements and provides the power point, speaker’s notes, and training for speakers; and handout packets for host sites. If you are interested in this opportunity, kindly send your CV to Program Director Amy Wishner, MSN, RN at awishner@paaap.org.

NIH’s “Obesity and Research Opportunities” are listed [here](#).

Chop-Chop Magazine is running a recipe challenge. Bring fruits and vegetables to life by creating recipes with fresh, seasonal produce from your garden, a community garden, your grocery store or farmers market. Submit your recipe before September 21st. Look [here](#) for more
information and to check out the prizes! Official rules and eligibility criteria can be found [here](#).

On August 15, [USDA's Rural Development Agency](#) released a [Notice of Funds Available](#) for the Value Added Producer Grant Program (VAPG). VAPG is a competitive program that provides money to producers to help them develop farm-related businesses that add value to basic agricultural products through branding, processing, product differentiation, labeling and certification, and marketing. The main goals are new product generation, expansion of marketing opportunities, and an increase in income. The estimated funding available is $14 million and applications are due October 15, 2012. Learn [more](#).
